

## **The Wash Wizards COVID-19 practices**

The Wash Wizards is open and operating providing this essential service to our customers during these trying times. We would like you to know that the following steps have been put in place on a permanent ongoing basis:

- All washing machines will be sanitized daily.
- Washing will be done with warm water and a high quality soap detergent. The Coronavirus hates soap and water. This will be done for every load unless otherwise instructed.
- Drying will be done on a high setting. Heat kills the Coronavirus. Again, this will be done for every load unless otherwise instructed.
- All laundry staff will always wear disposable gloves and masks.
- Counters used for sorting & folding will be washed after each load.

As always we will practice “CONTACTLESS PICK UP & DELIVERY”  
Your laundry bags will always be picked up and delivered to your front door without you having to engage the driver.

The Wash Wizards wants you to stay safe and we will get thru this together.
